EDUCATION

Bachelor of science, Sinhgad College of Science Ambegaon bk ,Pune-411046

Pune | 2017 - 2020

WORK EXPERIENCE

Globeminds Technologies | Frontend Developer

Pune | Feb 2021 – Present

- Designed & implemented visually aesthetic, responsive and user-friendly interfaces with 100% client satisfaction.
- Developed dynamic components that sourced data from the backend using data binding, services, observables & API calls.
- Built dynamic forms for better handling of the user inputs & data using reactive Forms, custom async validators.
- Optimized Angular web application for maximum speed & scalability using lazy loading techniques, onPush change detection, Async Pipes, RxJS etc.
- Managed routing, authentication & authorization using router, guards, params & queryParams, interceptor & JWT.
- Runtime styling instructions to the DOM using attribute & structural directives & custom directives to generate some graphs on the basis of inputs.
- Inbuilt & customized pipes to transform the data.
- Revamped existing web application from JavaScript to Angular for better optimization & interaction.
- Consistent follow up with team members and client communication to achieve rapid progress, best result.
- Resolved issues, bugs and maintained well-written documentation.
- Worked on various projects & a product using HTML, CSS, Bootstrap, Flex, Sass, Bootstrap, JavaScript & Angular.

PROJECTS

Institute Management System □

- It is a web-based application that designed and developed using Angular, a powerful front-end framework. This project aimed to streamline and automate various administrative tasks and processes within an educational institute, enhancing overall efficiency and organization.

Domain : Education

Technology : HTML, CSS, JavaScript, Bootstrap-4, Angular, Angular Material

SKILLS

- HTML, CSS, Bootstrap
- JavaScript, jQuery, TypeScript, Angular, Angular material
- Github,

ACHIEVEMENTS

- Gained various skills in Website design, development & integration
- Experience in requirement analysis, design specification & implementation through cycle of planning, execution & evaluation.
- Co-ordinated with UX team, Backend developers team & QA team while updating the status on progress + issues to the Team Lead.
- Proficient to work in high pressure & dynamic space.
- Independent contributor, mentor & team player.
